Technical datasheet

Soudal Surface Booster

Product description

Soudal Surface Booster is a highly effective, fast acting, aerosol, cleaning and degreasing agent. Soudal Surface Booster promotes adhesion of adhesive and sealants on non-porous substrates.

Properties

- Cleans and degreases
- Promotes adhesion of adhesives, sealants, foams, ...
- Increases life time of sealant adhesion
- Multi-purpose use
- Leaves no residue
- Fast drying
- Fast acting
- Ready to use
- Non-abrasive

Applications

- Substrate preparation before sealing and adhering.
- Suitable for cleaning and degreasing mechanical parts.
- Removal of uncured MS, PU, silicone sealants, tar residue, grease, wax,...

Technical data

Base	Solvent mixture
Consistency	Liquid
Density	Ca. 0.8 g/ml
Application temperature	+5°C → +35°C
Flashpoint	Ca. 10 °C
Volatile organic compounds (VOC)	Ca. 100%

Substrates

- Substrate types
  Substrates: All non-porous substrates. We recommend a preliminary compatibility test on every surface.

Application method

- Application method
  Shake can well before use. Spray at a distance of approx. 20 cm of the object. Apply as required. After applying rub the surface dry with a clean towel. Always rub in one direction. Test for adverse effects on the surface in advance.

Health- and Safety Recommendations

Take the usual labour hygiene into account. Consult label and safety data sheet for more information.
Use only in well-ventilated areas.
In case of contact with eyes, wash immediately with plenty of water.
Dangerous. Respect the precautions for use.

Soudal Surface Booster

Packaging/Logistics

Shelf life: 3 years in unopened packaging in a cool and dry storage place at temperatures between +5°C and +25°C

Remarks

- Due to the wide variety of possible plastics and paints and to avoid damage to the surface, a preliminary compatibility test is recommended.
- Do not use in double glazing applications
- Do not use in direct sunlight.
- Do not store in direct sunlight.
