

Composite External Slat Wall

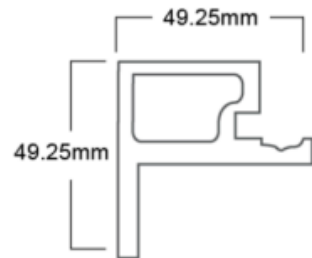

Technical Data Sheet

Slatted Cladding

Trims

SLATTED END TRIM

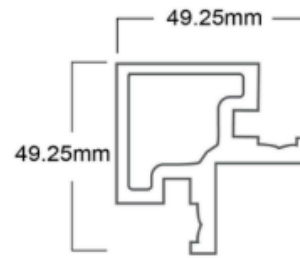

Available in Natural Oak, Misty Wood, Midnight Black, Spiced Cedar, Stone Grey and Walnut

Length (mm)	2500mm
Width (mm)	49.25mm
Depth (mm)	49.25mm
Material	Composite
Weight (kg)	2.2kg

SLATTED CORNER TRIM

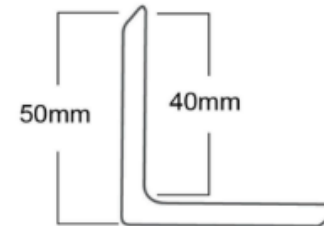

Available in Natural Oak, Misty Wood, Midnight Black, Spiced Cedar, Stone Grey and Walnut

Length (mm)	2500mm
Width (mm)	49.25mm
Depth (mm)	49.25mm
Material	Composite
Weight (kg)	2.5kg

SLATTED L TRIM

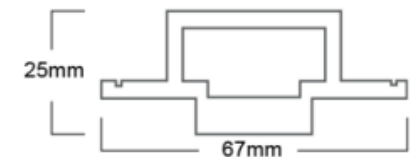

Available in Natural Oak, Misty Wood, Midnight Black, Spiced Cedar, Stone Grey and Walnut

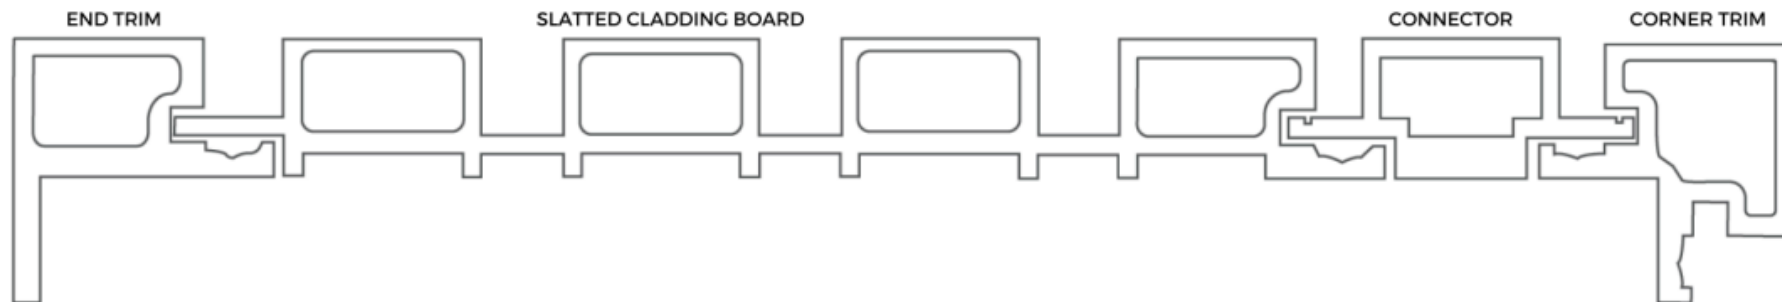

Length (mm)	2500mm
Width (mm)	50mm
Depth (mm)	49.25mm
Material	Composite
Weight (kg)	2kg

CONNECTOR PIECE

Available in Natural Oak, Misty Wood, Midnight Black, Spiced Cedar, Stone Grey and Walnut

Length (mm)	2500mm
Width (mm)	67mm
Depth (mm)	25mm
Material	Composite
Weight (kg)	2kg

Composite Cladding is a combustible material intended for domestic applications where fire ratings are not required by local building regulations. Customers are strongly advised to check with local building control before purchasing or installing this product to ensure it is suitable for your project needs.
